

EDGE TRIM

In response to countless customer requests, we are pleased to introduce one piece, seamless edge trim to our extensive line of interlocking flooring.

INTRODUCING NEW! SEAMLESS EDGE TRIM

Black

Safety Yellow

Safety Red

Advantages of seamless edging versus sectional edging:

Eliminates gaps on edge's piece connections

Creates a better looking seamless, one piece finish

Saves installation labor

Easy to install

Lays flat and stays flat

Save money by buying exactly the amount you need
(rounded to the nearest foot)

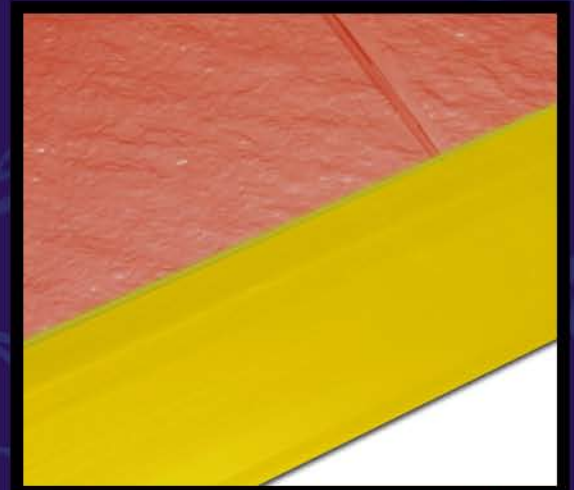

Available in a variety of colors to match or complement our entire program

Enhances safety

Easily create mitred "inside" and "outside" corners

Since the edge of any installation is subject to the most wear and tear, we've made this edging with an even more durable resin than our tiles.

It has been tested in a variety of actual installations for the past 12 months and has proven itself under a variety of conditions, including temperature extremes as well as stress, abrasion, and pressure.
